MEMBERSHIP & PROGRAMME OVERVIEW

Welcome to DAN

DAN (Draper Angel Network) is an invite-only angel investment community established under DraperU India with a mission to bridge one of the biggest funding gaps in India's startup ecosystem.

Every year, thousands of innovative startups struggle to raise their first ₹5 lakh to ₹50 lakh — the capital required to build products, validate markets, acquire customers and prepare for institutional funding.

While India has an increasing number of venture capital firms, there remains a shortage of active angel investors willing to support founders at the earliest stages.

DAN has been created to solve this problem.

Our Vision

To build one of India's most trusted communities of angel investors while creating meaningful opportunities for early-stage founders.

Why DAN?

Angel investing is no longer limited to seasoned investors or venture capital funds.

Professionals, entrepreneurs and business leaders possess valuable experience, networks and strategic insight that can significantly influence the success of young startups.

DAN enables members to participate in India's startup growth story through carefully curated opportunities.
